CLEAN-UP GANG HARD AT WORK

SECOND STRING MEN WIN PRACTICE GAME SATURDAY

Varsity Ball Team Will Play City League All-Stars Next Saturday.

The second string team of the ball squad won Saturday morning's practice game from the regulars, 9 to 3, evening the count with the first team which won the first practice game over a week ago. The Varsity meets a team of All-Stars picked from last year's city league clubs next Saturday in the first outside game of the season.

The scrubs had things all their own way Saturday, pounding the ball all over the lot, while the regulars could do nothing with the curves of Jimmy O'Connor, who showed his best form of the season, holding the first team helpless and setting back several via the strike-out routine.

Doc will use the following infield to start against the All-Stars: Meagher, 1b; Tarbox, 2b; Driscoll, ss, and Anderson, 3b. Although this quartette is far from "air-tight," it has been working together smoothly, and looks by far the best of any of the combinations Doc has yet used. Two hurlers—O'Connor and Centerwall—will have to bear the brunt of hurling assignments unless the other slab aspirants show more class than they have yet shown. Rover has been slow to get into shape, but may come through in good style when the raw weather lets up. King Tut Burtress and Danta Hanson have been working out in the box lately. Tut has had previous experience on the rubber and can be used as a relief hurler, but Hanson has never worked on the slab before. If Doc and Cap Cummings can develop him into a capable hurler, he will prove highly valuable to the team, which is in sad need of another slabster. Dunstan is the fifth member of the staff. He has yet to demonstrate his ability. Berg, Illman, and Stowe are the most promising fly chasers, with either Guthrie or Long to get the call behind the bat.

The coming game Saturday with the All-Stars will give some indication of the strength of this spring's team, as the crew under the management of the two Kellys—Owen and Bill—has a mean array of the city leaguers in the lineup.

The coming game Saturday with the All-Stars will give some indication of the strength of this spring's team, as the crew under the management of the two Kellys—Owen and Bill—has a mean array of the city leaguers in the lineup.

FROSH TO GIVE "M" ANNUAL PAINTING BEFORE MAY 2

Dimond Urges All Freshmen to Wear Green Caps

The "M" will receive its semi-annual coat of whitewash before May 2, according to plans formulated at a meeting of the freshman class in Main hall yesterday. Bert Smith will be in charge of the work.

Plans were also made for the inter-class track meet and the tug of war. Arnold Gillette will be in charge of the former and Howard Varney the latter event.

The wearing of green caps was discussed at the meeting. John Dimond, president of the class, urged that all freshmen wear their caps as a tradition and not wait until they are forced to do so. Attendance at the meeting was very poor, according to Dimond.

PART-TIME STUDENTS MUST PAY FOR ANNUAL

Students who have missed one or more quarters of the current year must order their Sentinels from Catherine Jones, at the business office, before May 10, according to Gid Boldt, business manager of the 1924 Sentinel. Extra copies of the book may be procured in the same manner.

For each quarter missed the student will be obliged to pay 35 cents as that is the amount apportioned to the Sentinel each quarter from the five-dollar ASUM fee, paid by all students.

"It is of utmost importance that students order the books as soon as possible, as there will be few extra copies," said Boldt yesterday.

Big Dance Tonight at Winter Garden

Plans are complete for the Aber day dance tonight at the Winter Garden, according to Gid Boldt and William Aho of the dance committee. Dancing will begin at 8 and continue until 11. There will be no admission charge.

Several novel features are promised by the committee. Men wearing neckties or white collars will not be allowed to enter the dance hall, according to Aho.

ANNUAL CLEAN-UP DAY FIRST HELD APRIL 1915

Cecil Vance, Football Star, Proposes Aber Day to Beautify Campus of University

Early in March, 1915, Cecil Vance, one of Montana's football heroes, proposed to Professor Paul C. Phillips that the University have a general clean-up day and name it in honor of Daddy Aber, who every spring took personal supervision of beautifying the campus and made it his pride that the campus present a pleasing appearance.

Vance had other reasons, too. At that time most of the junior work around the University was done by students who were working their way through. Daddy Aber was interested in these boys, and many times had come to school at 4 o'clock in the morning to do their work so that they wouldn't lose their jobs while on football trips. Vance was one of these boys.

At a convocation held March 24 of this same year, called by Professor Leaphart, the student body unanimously voted that one day of every spring quarter be set aside for the beautification and general clean-up of the campus. The date for the first Aber day was set for April 16. A central committee was in charge, composed of one faculty member, two men students and one woman student. The hours were from 8:30 to 12:00 and from 1:30 to 4:00. With the exception of four or five delinquents, the entire student body was on the campus at the appointed time, enthusiastic to make this new tradition a success.

The women were busy the entire morning, under the supervision of Miss Edmonds, of the domestic science department, preparing food for the workers, who made short work of the sandwiches, beans, cakes, pickles, coffee and oranges which stacked the long tables placed under the trees in front of Craig hall.

The men raked the campus; repaired the dilapidated walk to VanBuren bridge, which has since been replaced by a cement walk; laid out a new baseball diamond; rolled the tennis courts in the rear of Craig hall, which had become soft and useless, and for the first time the football field was sown to grass.

A shirt-waist dance was held in the gymnasium lasting until one o'clock, which marked the close of the first Aber day.

DELTA GAMMA INITIATES.

Delta Gamma announces the initiation of Lillian Bell, Roundup; Esther Beck, Bozeman; Adaline Bechom, Hildegard; Weisberg, Margaret Maddock, and Ruby Parker, Missoula; Eleanor Watland, Billings; Pauline Wright, Butte; Ann Louise Cutler and Mary Jacobsen, Helena; Mildred Herick, Glendive, and Margaret Jackman, Butte.

SENTINEL PROOFS ARRIVE

Proofs of the scenic section for the year book arrived yesterday, according to Knowles Blair, editor. The section contains 16 pages and is done in light brown and chocolate. The annual will be completed June 5.

COUNTY FURNISHES ABER DAY TRUCKS

A fleet of trucks has been secured from the county for use Aber day. These trucks will be used to haul away the refuse and debris as it is collected by the students. The tools, such as rakes, shovels, etc., will be furnished by the U. S. Forest Service. The dishes for feeding the crew will also be furnished by the foresters.

BOARD WILL CHOOSE MANAGER THURSDAY

A Varsity football manager, assistant manager, and Frosh football manager will be elected by the Athletic board, at a meeting Thursday afternoon. Ted Halvorson, Archie Blair, and Robert Nofsinger have applied for these positions and have been passed on by Central board.

Unfavorable Weather Hinders Work of Montana Track Team

Raw, cold weather still pursues the Grizzly track team, a chilling wind cutting Monday afternoon's workout short. The team had the weather to fight Friday, while Saturday was the first good track day of the week. Ineligibility, loss of last year's stars, and rotten weather have combined to make a jinx that the track team has been unable to shake loose. With the opening of the season less than a month away, let-up in the weather will enable Coach Stewart to see just exactly what his men can do under favorable circumstances. The opening meet of the year for the Varsity is the Seattle relay carnival, scheduled for May 3.

Stark, Machgan and Ritter are showing up the best in the sprints, but Stewart hasn't any prospects for the distance races unless the men now out show a great deal more speed under better conditions. Erickson, Ritter and Rotler look the best for the 440. Erickson, Dunn and McNeven are the candidates for the 880-yard run. Maudlin and Shaffer continue to improve in the discus, and George Axtell is averaging about 40 feet in the shot-put. Kibble, Coulter and Baney are the most likely prospects in the pole vault. Kibble and Shaffer are the leading contenders for the high jump and broad jump. Marvin Porter and Coulter are showing fairly good form in the hurdles.

The dates for the three other meets on the Grizzly schedule are: Dual meet with W. S. C. May 16, meet with Idaho May 19, and Northwest conference meet May 31 at Eugene, Oregon.

The dates for the three other meets on the Grizzly schedule are: Dual meet with W. S. C. May 16, meet with Idaho May 19, and Northwest conference meet May 31 at Eugene, Oregon.

The dates for the three other meets on the Grizzly schedule are: Dual meet with W. S. C. May 16, meet with Idaho May 19, and Northwest conference meet May 31 at Eugene, Oregon.

NOTICE

Bosses will take the final check of workers at 4 this afternoon.

HIGH SCHOOL EDITORS TO MEET TRACK TIME

Interscholastic Press Association Will Discuss Problems Relating to School Papers

The High School Interscholastic Press association will hold its annual convention at the University May 8 and 9 during interscholastic track meet. Representatives from 30 high schools which publish newspapers are expected. The purpose of the association is to discuss problems relating to the production of high school newspapers, according to A. A. Applegate.

A prize contest for the best high school newspaper published in Montana is being held by the school of Journalism. Two silver loving cups will be awarded, one to the best paper published in a high school with 500 or more students, and the other to the best paper published in a high school with 500 students or less. These cups will be awarded during the convention.

The association was organized in 1915 by Dean A. L. Stone of the school of Journalism. The officers at present are: President, Lee Marlowe, editor of the Helena Nugget, Helena high school; vice president, Ethelyn Culbertson, editor of the Mountaineer, Butte high school; secretary, Edwin Mannix, editor of the Konaah, Missoula county high school.

GROUPS FAIL TO PAY

Twenty-five organizations have not yet paid for the pictures that are to be in the annual. Gid Boldt, business manager of the book, urges that all those who have not yet paid for their pictures do so as quickly as possible.

FROSTY MORNING GREET'S TENTH ANNUAL ABER DAY

PREXY CLAPP In his Aber Day costume.

GID BOLDT WINS ABER ORATORICAL

Olive McKay and Grover Johnson Divide Honors for Second Place

Gid Boldt, a junior in the law school, won the annual Aber oratorical contest at convocation yesterday at 11 o'clock.

His topic was "World Peace." In brief he sketched the history of man from primitive times until the present century and told how man has always secured his peace through strife and war. "The man of the 20th century lives by the same code as his ancestors thousands of years ago," said Boldt, "and self is the basis of that code. Until we change our attitude toward one another, and have faith instead of distrust, a world peace will be futile."

Grover Johnson, speaking on "The Road Away From Revolution" and Olive McKay, speaking on "Intellectual Preparedness for Peace," divided honors for second place. The other contestants were Elnar Strommes, speaking on "The Trend of Intolerance," and Louis Aronowsky, speaking on the topic, "An Appeal."

This is the fourth annual contest to be held at the University. The fund was created by Professor William Aber with the provision that the interest be divided into prizes each year for the best orations on topics of current interest. The \$50 interest from the Aber fund was divided into two prizes, \$35 to first place and \$15 to second. Mr. M. L. Murphy presided at the contest and gave a brief explanation of the object of the contest and the nature of the prizes that would be awarded.

Dean A. L. Stone, of the School of Journalism, Miss Mountcastle of the English department and Professor H. M. Colvin of the Law school acted as judges of the contest.

BILL CAPTIVATES 'EM WITH LOTS O' SKETCH

"Say, Jack! See Bill Hughes over there making a sketch of Prexy Clapp in his overalls? Well, he's the chairman of the sketching committee. Gretchen Coates, Herb Schwalm, Evan Reynolds and he are parked here and there about the campus making sketches of the kids as they make pretenses of working. Bob Green said that he heard that some of the sketches would be in the Sentinel. I wonder who Bill is going to draw now? He's looking at me, so I'd better start to kick this old stone over in the pile. Aw goah! He ain't going to draw me, after all."

Students Find That They Must Work to Keep Warm; Many Come Late

Students in old clothes and faculty members in misfits checked in and were issued tools at 8:15 this morning for the University's tenth annual Aber day. The work of the morning was greatly speeded because of the students' attempt to "work hard enough to keep warm." The work lists were checked over and the flying squadron immediately set out in search of the missing students. Many stragglers entered the gates after 8 o'clock.

The Grizzly band was on the job, in full force, at 8 o'clock this morning and continued to generate jazz throughout the morning. The music manufacturers marched to all parts of the campus, playing as they went and appeared as angels from heaven to the many fatigued laborers, who were much revived by the strains of "Up With Montana." The band will also play this afternoon after the noon-hour concert.

Athletic Field Work

Squads under the supervision of Captain Biscuits Driscoll and George Axtell are getting the old baseball diamond south of Simpkins hall and the track in shape for coming contests. The diamond, which has been used by this year's frosh ball team, is being given a thorough going over. Rocks are being removed, elevations leveled, and countless ruts and holes filled. Track men are getting the track in shape, by raking, rolling and dragging. Loads of soil are being dumped on the ball diamond that the surface of the field may be leveled. Then, a good rolling and the sprinkling, and Doc's athletes will be able to romp over a diamond that is less like a plowed field than it is now.

Repair Memorial Row

Memorial Row, the two lines of trees near the Natural Science hall established after the war as a memorial to the students and graduates of the University who were killed in the world conflict, are being straightened up and the signs repainted today. "A more permanent memorial will be erected in the future," stated Boss Grover Johnson, "so not much will be done with the row of trees that are now serving for that purpose."

The trees in the row were planted after the war and each has a small sign near it bearing the name of the soldier or nurse who was killed in the world conflict. These signs have become misplaced during the year and some are lost so that it is necessary to make new ones and repaint the old ones.

Foresters Make Nursery

The forestry crew is busily engaged in the work of making a nursery to be used in the future by the Forestry school for experimental purposes.

The plowing of the field completed, the men are making great advancement in the construction of seed beds, walks and roadways. A nursery building which will be used for the housing of plants and shrubbery is also being erected. A good many days of work will be required to complete the nursery, but with the closing of the day great advancement will have been made, due to the large force of men being used.

The nursery site is located south of the gymnasium, covering an area of 30,000 square feet.

CANDIDATES MUST FILE PETITIONS BY THURSDAY

All petitions of candidates for WSGA offices for 1924-25 must be handed in by April 17, according to Helen Newman, WSGA president. The primary elections will be held during the first part of May, and it will be at the primary elections that the May queen will be elected. Committees for May Fete have already begun work, and if present plans are carried out, May Fete will be put on during the first part of May.

Aber Day

TODAY we celebrate the University's tenth annual Aber day. The campus and the grounds are being put through an overhauling process in preparation for the season when the University must undergo the scrutiny of many visitors. Cleaning the campus is a necessary spring duty. It gives nature every chance to put on her beauty touches, the touches that have made our campus rarely beautiful.

Let us hope that slackers will be few; that all, with the closest spirit of co-operation and service, will assist in making this day what it should be, the greatest day of the year.

The Same Spirit

(From the 1923 Kaimin)

TODAY we wonder just what the first Aber day was like—eight years ago when those students, led by the example of Daddy Aber—full of loyalty and pride in their campus, declared a day set aside for the purpose of working together in beautifying and improving things.

They had Daddy Aber with them then and they were filled with that strong loyalty and love which prompted them to dedicate that day to him.

Aber day became a tradition and each year found more and more to be done, but behind the tradition, behind the day itself, has the spirit remained the same? Is Daddy Aber still with us and that original spirit still as strong? We work and work hard—is it for the same reason as those first few students worked? They had no policemen then. They had no need for any, because they had the real spirit behind them—the real loyalty itself. They were helping Daddy Aber to fulfill his hopes. Those things made the day what it was then.

It was not just a holiday nor did they work because of the "work" itself, but because they had wanted to do it in memory of the man who was always working for them all.

And so it should be today—and is. We are not working for the sake of getting the work done. We are not declaring a holiday just for fun—but because that same loyalty is behind us, too. We're helping as they helped to fulfill his hopes for the University, which were so big and beautiful that it will take all the Aber days there ever will be to reach his goal.

inal. The dark figure, seeing that he was being followed, led them to the flat very much south of South hall before inquiring as to their intentions. Upon approaching him, the Pinkerton boys found that he was a stranger. They also decided that he was mysterious, and putting two and two together (contrary to all the laws of mathematics) they made "Mysterious Stranger." He was their man!

"I'm on my way home," he told the young sleuths when they halted him on the prairie very much south of South hall. "We'll see you there," the young Pinkertons leered. And so the four again set out, the Mysterious Stranger taking the lead as is the way with strangers. He led them over rocks and sticks and through the darkness of the night in search of a home. The youths were weary and getting wearier, and finally, perceiving that his wife and brood were not in that neighborhood, persuaded

him to go to town with them, and turned him over to the constable.

Now here is where the technicality comes in—the constable, for lack of evidence, released him the following morning, the detectives say, to again pursue the school girls around the campus, and peek in on the young ladies in their club houses.

Obviously it was the fault of the constable, say the detectives.

James DeJarnette, of Orchard Homes was operated on yesterday at St. Patrick's hospital for mastoids.

Our Girl

Says these leaves are just like men; she tries to rake 'em in, but they all fly away.

Didn't wash her face this morning. She just knows she'll get made up this afternoon.

PROF PSYCHOLOGY

The sleepy prof woke up at the early hour of seven. He looked at the clock and through his mind flitted evil thoughts of Old Daddy Aber. Maybe he was a good man and had the interest of the school at heart, but I don't see why I have to suffer because of his ambition. Here it is the middle of the night and I have to go out and rake that infernal campus, and the worst of it all is that I only had one class today. All these thoughts and more passed through the professor's mind.

After he had had his breakfast the professor brightened; perhaps maybe after all it wasn't such a bad idea. He hurried out to the campus, because it was almost the time when he was to report for work. As he neared the campus he heard cries of laughter and mirth. Everyone seemed to be happy and having a good time.

When he saw the students and faculty clad in wierd make-ups that would make a movie director dizzy, he was completely won over. He fell into the spirit of the thing; he worked harder than he had ever worked before, and at the same time he had a better time than he had ever had before. Like all the rest, he enjoyed Aber day.

Mr. and Mrs. August Reichle visited their daughter, Martha, over the weekend.

A Detective

And How to Become One

Page Conan Doyle! Sherlock Holmes has been reincarnated—in triplicate. Scotland Yard would also benefit by affiliation with Buck Ramsey, Gene Myers and John Crimmins.

These human bloodhounds have set up a mark which detectives of the western hemisphere will do well to equal. Their execution in sleuthing is beyond reproach. If there can be any criticism of their work it is on a technicality which undoubtedly will receive their attention in the future.

Having heard the many tales of the Mysterious Stranger, otherwise known as Pete the Peeper, who has been frightening school girls on the way home from the library and who has been seen prowling around ladies' club houses, the above mentioned trio was not slow to act at the sight of a dark figure sneaking out of an alley Friday night. They immediately set forth to "shadow" the crim-

Better Shoe Repairing

When you bring your shoe repairing to us you can be certain of having a good job done.

We know shoes, and we take pains to make our work neat and lasting.

You will find modern machinery used in this shop, so that our service may be the best that we can make it.

Ely Shoe Hospital

114 Higgins Ave., next to McKay's

You won't fumble this cap!

Professional jugglers could handle the old-style shaving cream caps and never once drop one down the drain or under the bath tub. But for most of us, this new Williams Hinge-Cap puts an end to an ancient nuisance.

Williams Shaving Cream is just as much pleasanter to use as is the Hinge-Cap. It softens the beard with uncanny speed. The thicker lather holds the moisture in against the skin where it is needed. This lather lubricates the skin, too, so that painful razor friction is eliminated. And when your shave is done, that famous ingredient in Williams which helps the skin, leaves your face cool, soothed and refreshed. No coloring matter is used in Williams—it is a pure, natural-white shaving cream.

Williams Shaving Cream

EARLY BIRD GETS WORM IS MOTTO FOR WORKERS

The following hold the distinction of being first in their particular line of endeavor, on the tenth annual Aber day.

Louis Stevens and Fay Machgan tied, being the first men on the campus. They arrived at eighteen minutes to eight.

Peg Hershey, the first woman on the campus.

Cap Cummings led the faculty by a nose.

Louise Joughin won the apples for being the first woman to have her face pointed.

The crew at the ROTC, under the charge of George Witcomb and Prentiss Staggs, turned over the first shovelful of dirt.

The first band to appear belonged to the ROTC.

X-569 was the number of the first work truck on the campus.

The first bluster appeared when Red Neill took his hat off and stood in the sun.

Persis Matthews bought the first hot dog from the "Crimmins Coney Island Stand."

Ralph Fields purchased the first chew of Climax at the campus store.

First blood goes to Morris McCollum, manager of the ASUM store; he cut his finger when he broke a window of the student building in an attempt to get the keys to the front door.

PEWEE'S BAND AWAKENS RESIDENTS OF SOUTH HALL

The exhilarating strains of "Up With Montana" awakened the anxious workers from South hall early this morning. The official wakers—a band composed of Pewee Alden, drums; Fenton Stone, trombone, and Charles Thomas, clarinet, clad in the modern version of the God of Music's toga (plebian B.V.D.'s)—arose long before daylight and waited breathlessly till seven o'clock, when they began their much-welcomed serenade.

Marching up and down each hall they visited each room, where they received a stunning ovation of spare alarm clocks, shoes and neckties. The officials of the hall are very pleased with the methods used to wake the men. It is the first time in the history of the hall that all the men have been on time for breakfast, they claim.

PREXY CLAPP! ASLEEP AT THE SWITCH!

The most heinous of offenses was committed by Prexy Clapp this morning. While others raked, scraped, and sweat in the morning sun, Prexy lay in his downy bed and heeded not the call of duty. Then came to his ears the harsh, obnoxious blasts of the Grizzly band and a loud banging on the door. He heard the stern voice of John Shaffer persuading him to arise and greet the dawn.

With a guilty conscience Prexy pried himself from the inviting bed, dressed hurriedly and went to the door. Before him he saw the stern countenances of several M men and members of the band. "It's nine o'clock," said the chief of the flying squadron, sternly. "You should have been to work an hour ago. What excuse have you to offer?"

"I've been to Spokane for the past week," faltered Prexy, "and forgot to turn my watch back."

SALESWOMEN CAUSE DROP IN CHEWIN' TOBACCO SALES

Morris McCullum, otherwise known as manager of the campus store, pulled a horrible "fox-paw" when he hired three co-eds to stand behind the counter today. Statistics show that the sale of eating tobacco was practically nil for the day, and all because gentleman rake-wielders were loath to purchase their favorite brand of cut-plug from the fair hands of the female.

Full many a worn-out, parched-throated youth was seen to enter the store this morning with an eager look in his eye and a dime in his hand, raring to order a cake of "Masterpiece," only to be compelled to order "Tutti-Fruitti."

HUNGRY WORKERS EAT VAST STORES OF FOOD

Eighteen hundred buns, covering as many weiners, and 25 pounds of butter are being handed out to the hungry mob at Craig hall this noon. Three hundred and sixty boiled eggs made 2,000 slices of bread into egg sandwiches. Sixty-four gills of cream and 25 pounds of sugar are being used in the coffee. Three hundred pounds of potatoes make up the salad. Ten hundred and twenty cookies compose the dessert.

Wallace (Red) Brennan's yellow Nash sport model was the official press car of the campus this morning, carrying Kaimin copy down to the New Northwest printing office as fast as the sputtering typewriters ground out the feature stories.

Malice Toward All, Justice to None, Is Slogan of Court

Aber day high court will be held on the oval after the work has been completed, as has always been the custom. The purpose of the court is to convict those guilty of certain crimes which hinder the progress of the work that is being done on that day. According to the judge, those brought up before the court will be given a fair trial, but if convicted will be sentenced to the full limit of the law. As there will be a special police patrol to check up on all workers, it will be almost impossible for slackers to evade the court.

Miles J. O'Connor, senior in the law school, will act in the official capacity of judge. Kenneth Simmons and Christopher J. Griffin will be his associates. Clark Brown will be bailiff and Einar Strommes is to be court jester. All of these men are of the law school and are anxious to show the students their ability at trying cases of grave importance. They will be assisted by the members of the M club in executing the punishment to those found guilty. Attendance at the court is compulsory, and those not in attendance will be subject to prosecution.

ROTC CAMPING GROUNDS CLEANED UP FOR DRILL

Seventeen gladiators with rakes, shovels and pick-axes assailed the piles of rock, dirt and rubbish around the ROTC building under the leadership of Boss George Witcomb at eight o'clock this morning.

Under the leadership of the gallant

lieutenant-colonel of the battalion and with the able assistance of the military personnel, piles of rubbish, rocks and dirt began to disappear into the waiting trucks, where it was dispatched to the dumping ground.

This morning the members of the cleaning squad leveled the drill field for the fourth general assembly to be held Friday, April 18.

SLACKER LIST

The following is a partial list of the men who failed to report or were late: Williamson, C. Keim, Doull, C. Fergus, Carstens, M. Coen, Craig, D. Dahlberg, H. Schwan, Bus Scott, Bob Currie, Gillian, Stegner, Green, C. Johnson, L. Jourdenais, F. Nelson, I. Stromness, A. Wilson, S. Wilson, Nelson, K. Murray, Lewis Nickols, Longpre, J. Loveless, Emmett Morell.

"Always Something New"

This advertisement, submitted by Raymond A. Stevens, of Syracuse University, was awarded second prize in The Postum Cereal Company's intercollegiate advertising contest.

Are You a Winner— or a Loser?

YOU have undoubtedly chosen to be a winner. You are training your mind and strengthening your will.

But what of your body? Will it sustain you when the race becomes fast and strenuous?

To keep in a winning condition, you must exercise every muscle and organ in the body. The fuel-supplying organs—the stomach and the digestive organs—need exercise in the form of digesting rough foods such as: whole-wheat bread, bran, and hard cereals.

Grape-Nuts not only exercises these fuel-supplying organs, but its nutritive elements of whole-wheat and malted barley, toasted to a nutty crispness, make it the most delicious breakfast food you have ever tasted.

For a well-balanced diet, try Grape-Nuts—four teaspoonfuls sprinkled with sugar, half cream and half milk. You will call for it every morning. *There's a reason.*

Harnessing Niagara Falls for the First Time

What Engineering Owes to Faith

THE pioneer harnessing of Niagara Falls in 1892, like all great engineering feats, was the result of the co-operation of many able and constructive minds. There were no "older engineers" on this work, with younger assistants, as is now common, because there were no "older" engineers then. All of them were young men in a young business, optimistic, enthusiastic and willing to take long chances.

The original Niagara installation represented progress based largely on faith because there were many features of construction proposed at that time which Westinghouse Engineers refused to accept, and which time has shown to be utterly impracticable.

Thus, in effecting a compromise, the three fundamental features of heating, insulation and regulation of the 25-cycle machines as built, were vastly different from the original designs. Time verified their judgment, the ten original generators operating successfully for more than a quarter of a century.

Looking back, it is gratifying that those young men served engineering so courageously, because truly it was an undertaking that taxed their faith to the limit.

ACHIEVEMENT & OPPORTUNITY

ROBERT C. LINE TALKS ON GOOD SALESMANSHIP

Former State University Graduate Gives
Lecture in Forestry Building
Monday Morning

"Good salesmanship can only be attained through hard study," declared R. C. Line, merchant and sales expert and member of the state board of education, in his lecture to University students in the forestry building Monday morning.

"Knowing something about the economic world and the subject in which you are dealing is one of the greatest assets a salesman can attain," said Mr. Line. "I am impressed more and more with the person who knows something of the economic world and the customer with whom he is dealing. A salesman must consider a customer's problems and needs; he must investigate his customer's financial standing and the caliber of the man, in order to sell adequately."

"A salesman must gain knowledge of selling," said Mr. Line, and to illustrate this point he cited the early-day pioneer as of that caliber which made good salesmen. "To know the problems of the man is more essential than the quality of the goods you have for sale. You must not only take into consideration the purchaser's economic and financial situation, but also his desire, and that can be brought about through the convincing argument which you put forth."

"Knowledge of your merchandise is another essential which the salesman must have." Beside this the salesman must know the quality of competitive merchandise, and in so doing protect himself from being open to the conviction of the purchaser.

"Accurate and constructive salesman-

ship, concentrated on one thing, will bring about large returns. Know what is in demand and the price of it, and then make a definite analysis of the situation that confronts you in your sale. Salesmen should have a thorough knowledge of their sales, which in turn will put confidence in themselves. There is one way to raise your batting average on salesmanship, and that is to know sales from start to finish."

Social Groups Elect Convention Delegates

Five women's fraternities which are represented on Montana's campus will hold national conventions in June. Alpha Phi and Delta Gamma conventions will be in the west, while Alpha Chi Omega, Kappa Kappa Gamma and Kappa Alpha Theta will meet farther east.

Chi chapter of Alpha Phi will be hostess at the national meeting of its fraternity, which will be held in Glacier National park from June 23 to 28. The headquarters will be at Many Glaciers hotel, and Ellen Garvin will be the official delegate from Montana's chapter, although practically the whole chapter will attend.

Delta Gamma will be represented by Marion Prescott at Estes Park, Colorado. The convention dates are the same as those of Alpha Phi.

Doris Kennedy will represent Alpha Chi Omega at Swampscott, Massachusetts. She will leave Missoula June 19 for Chicago. From Chicago a special train will be run which will arrive at Swampscott June 23. The convention dates are June 23 to 29, and the headquarters will be the Ocean House just out of Boston.

Anne Beckwith of St. Ignace will be Kappa Kappa Gamma's delegate to its national convention in Toronto, Ontario, Canada. The convention will convene July 27 and will last until July 1, the headquarters being Bigwin Inn.

Kappa Alpha Theta will be represented at Madison, Wisconsin, from June 27 to July 1, by Eloise Baird. She plans to leave soon after school closes and will make several visits en route.

LEWELLEN LOSES REP AS BEST WOMAN HATER ON MONTANA CAMPUS

The true character of Jesse Lewellen has come to light at last. No longer can Jesse pose as being the champion woman-hater of the University for, not long since, an incident occurred which turned back the pages of his life and revealed, in bold outline, a remnant of his past.

It was an evening in early April, the tenth, to be exact, that three young men walked forth into the night from Owen Kelly's pool emporium. Hardly had the three crossed the street when there arose on the balmy air the emotional, heart-rending cry of a woman.

"Why, hello Jesse," she said gladly, walking up to our hero and slapping him on the back. "How are you?"

Lewellen's face grew several degrees paler. He became helpless and weak. Then he summoned all his courage, cast an icy lamp at the woman and said coldly, "I don't know you. Go on away." He turned to leave, but the woman was not to be put off so easily.

"What, Jesse," she wailed brokenly, "don't you remember your old girl that you used to step out with in Powell, Wyoming?"

"Shut up," roared Jesse. "Don't tell all you know." With this shot he stalked majestically down the street, leaving in his wake a broken woman.

SCABBARD AND BLADE INITIATES SIX MEN

Scabbard and Blade, national honorary military fraternity, announces the initiation of First Lieutenants Dean S. Thornton, Jordan; James K. Browne, Mullan, Idaho; Paul L. Anderson, Boyd; and Second Lieutenants Everett C. Bruce, Glasgow; LeBrun Beckwith, Missoula, and Marion I. Burke, Lewistown.

Initiation ceremonies were held Sunday morning in the ROTC building. Friday night, April 18, Major George L. Smith will give a fireside at his home in honor of the new initiates and the sponsors.

Good work, Aber Day people! It is a glorious tradition. And to Mr. Manager Ted Plummer we send congratulations. Please come down tonight or tomorrow and relax from the strenuous work of the day.

Micky, give the man a pass—signed on both sides.

GUY.

TRACK MEET ENTRY BLANKS MAILED OUT

Entry blanks which must be returned to the Track Meet committee by April 30 have been mailed to 139 accredited high schools of the state, according to Dr. R. H. Jesse, chairman. Last year over 80 high schools sent representatives to the meet and the committee expects that several more will be represented at the eleventh annual Interscholastic track meet to be held May 7-10.

If these blanks are not in the hands of the committee by the last of April the contestants from the negligent high school will not be permitted to compete in the meet. The purpose of this, according to Dr. Jesse, is to do away with the trouble which has arisen in the past due to the negligence of some of the high schools in returning the blanks.

JACK COULTER ELECTED COUNCILOR OF DE MOLAY

Jack E. Coulter of Hamilton was elected master councilor of Sentinel chapter, Order of DeMolay, at a meeting of the chapter held in the Masonic temple last Tuesday. Harold S. Hepner of Helena was elected senior councilor and Leonard Young of Lodgegrass was elected junior councilor. Walter Simpson of Plains was elected assistant scribe for the remainder of the quarter.

At the next meeting, Tuesday, April 22, in the Masonic temple, the DeMolay degree will be given to several eligible members.

Walter Halvorson of Cutbank was called home Friday by the death of his mother.

Weather Conditions Postpone Field Trips

Classes in zoology will not take any field trips until the weather conditions are more favorable, according to Professor Owens of the biology department. The field trips are a part of the spring quarter schedule, and are made for the purpose of gathering and studying specimens.

The weather has been too cool to allow the insects to hatch out. Within the next few weeks several trips will be arranged in order to give the classes plenty of material with which to work.

OMEGA XI INITIATES

Omega Xi announces the initiation of Helen Peterson, Katherine McPherson, Adella Converse, Alice VanPelt, and Lucille Rector.

A Thousand Years From Now---

"In 1924, the habitable portions of the earth will be populated to the maximum consistent with the existence of human beings."

That's a thousand years from now.

In the meantime, while there is plenty of elbow room, let's make the best of it.

Serving one another is about the best we can do.

Not a day passes that we do not strive to serve our customers a little better than before.

That's our constant aim.
